PROFESSIONAL EXPERIENCE

GEERD

02/2025 – 06/2025

Full-stack developer

remote

- **Built website pages based on Figma designs**, making sure the final site looked exactly like the mockups.
- **Found and fixed code bugs** to stop errors and keep the website working correctly.

Naoris consulting

01/2026 – 06/2026

Frontend developer

remote

- Developed multiple pages from scratch based on **Figma** designs, **which included** a dashboard with KPIs and many other **metrics, alongside** upgrading the existing AI chat interface to improve the overall product experience.
- **Improved app performance** by auditing the codebase to remove unused files, dead code, and unoptimized images.
- **Handled heavy data loads** by implementing lazy loading and pagination, preventing the UI from freezing when displaying long lists.

EDUCATION

1337 Coding school

09/2022 – 07/2025

Software engineering

Khouribga, Morocco

Ibn zohr

09/2018 – 07/2021

English studies

Agadir, Morocco

SKILLS

Languages: HTML, CSS, Javascript

Technologies: React, Next.js, Typescript, Zustand, Redux, TailwindCSS, Headless UI, TanStack Query, npm

others: Responsive design, RESTful APIs, GraphQL

PROJECTS

Nglish AI

In development

I am building a web app to help people practice and improve their English fluency with the help of AI. I originally started this project to solve my own language learning needs, but I plan to share it with other people who are facing the same issue.
